## User journey

by the Design Team of Accenture Interactive NL

e nin

**Difficulty**Beginner

Creating a user journey is a quick way to help you and your team gain a deeper understanding of who you're designing for, aka the stakeholder in your project. The information you add here should be representative of the observations and research you've done about your users.  $\wp$ 

Steps  Keep a check on the crops at regular intervals.  Check the soil for any abnormalities.  Take images at varous anges in availability of the fertilizer in the nearby precautions fertilizer in the nearby abnormalities.  The images at varous anges in the crop availability of the fertilizer in the nearby precautions fertilizer in the nearby abnormalities.  Take images at varous anges in the crop availability of the appropriate availability of the fertilizer in the nearby precautions and the disease.  Take images at varous anges in the crop availability of the fertilizer in the nearby fertilizer in the nearby prediction and the crop availability of the fertilizer in the nearby prediction and the spread of the disease.  The images at varous anges in availability of the proper light the crop availability of the fertilizer in the nearby prediction and the spread of the disease.  The images at varous anges in availability of the proper light the crop availability of the proper light the proper light the crop availability of the proper light the crop availability of the proper light the crop availability of the proper light th	Take the same set of actions
